Portfolio for self-directed learning for Major Project Work

Name of Student : Ayush Lalit Vaze

Semester – 5th   **Programme/branch:** CO

Roll No. – 1951

Title of the Project – Doctor Appointment System

Name and designation of Project Guide : Prof. K. A. Mokashi

Name of Polytechnic : Bhausaheb Vartak Polytechnic

Part A : Selecting the project and team

1. **How many alternate have you thought before finalizing the project topic ?**
   - ➤ I have thought of various different projects and selected "Doctor Appointment System" as my Capstone Project as it is more beneficial compare to other projects.

2. **Why I found present project topic as most appropriate?**
   - ➤ As we know, for booking an appointment with a Doctor, One should go to the clinic and book an appointment and wait for some time till his/her turns comes over. To eliminate this problem, I found this Project as most appropriate.

3. **Why are you making this Project alone?**
   - ➤ I have done Intership about the Android Development in my Industrial Training. So, I didn't found anyone to work with on an Android Application. This is the reason why I decided to make this Project alone.

4. **Can I achieve the targets set in the project work within the time limits?**
   - ➤ Yes, Surely. I will complete the given tasks and project work before time.

Part B : Reflection related to project planning

1. **Which activities are having maximum risk and uncertainty in my project plan?**
   - In my project plan, maximum risks can be occur while coding/programming the application and some uncertainties may encounter like some functions not giving expected output.

2. **What are most important activities in our project plan?**
   - As we are developing application based software, the most important activities would be debugging the errors while programming, also writing accurate and understandable code and developing desired software.

3. **Is it possible to complete the project in given time? If not what are the reasons for it? How can we ensure that project is completed within time?**
   - Yes, undoubtedly it is possible to complete the project in given time as I am working on it dedicatedly and sincerely.
